

Ideation Phase

Brainstorm & Idea Prioritization Template

Date	20 July 2026
Team ID	FinWise AI Team (SmartBridge SIP 2026 - SRM AP)
Project Name	FinWise AI - Intelligent Loan Eligibility, Credit Analysis & Financial Advisory Platform
Maximum Marks	4 Marks

Step 1: Team Gathering, Collaboration and Problem Statement Selection

The team (Jainesh Bharti, Navneeth Biyyapu, Vishnu Vardhana Reddy Paluvai) held a joint brainstorming session to identify a real BFSI (Banking, Financial Services & Insurance) pain point suited for an AI-assisted web solution.

Team Member	Area of Focus	Contribution to Session
Jainesh Bharti	AI Integration	Proposed use of Groq AI for generating personalised financial tips
Navneeth Biyyapu	Data & Backend	Proposed Google Sheets logging via Apps Script for tracking user submissions
Vishnu Vardhana Reddy Paluvai	UI/UX	Proposed a single dashboard combining eligibility, credit score and EMI tools

Selected Problem Statement: Individuals and first-time borrowers have no free, instant way to check loan eligibility, understand their credit standing, or calculate EMIs before approaching a bank - leading to wasted time and avoidable loan rejections.

Step 2: Brainstorm, Idea Listing and Grouping

Category	Ideas Generated
Loan & Credit Tools	Rule-based loan eligibility checker; Credit score classifier (Excellent/Good/Poor); Reducing-balance EMI calculator
AI-Powered Advisory	Groq AI-generated personalised financial tips; Chatbot-style Q&A; AI-based document summarizer (future scope)
Data & Automation	Google Sheets logging of every submission via Apps Script webhook; Downloadable PDF summary (future scope)
UI/UX	Single-page glassmorphism dashboard; Mobile-first responsive layout; Dark, fintech-inspired theme

Step 3: Idea Prioritization (Impact vs. Effort)

Idea	Impact	Effort	Priority
Loan Eligibility Checker	High	Low	P0 - Must Have
Credit Score Analyzer	High	Low	P0 - Must Have
EMI Calculator	High	Low	P0 - Must Have
Groq AI Financial Tips	High	Medium	P0 - Must Have

Idea	Impact	Effort	Priority
Google Sheets Data Logging	Medium	Low	P1 - Should Have
Chatbot Q&A / PDF export	Medium	High	P2 - Future Scope

The four P0 ideas (Eligibility, Credit Score, EMI, AI Tips) were carried forward into the Proposed Solution, along with Google Sheets logging as a supporting P1 feature.
