Customer Problem Statements

PS No.	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	a salaried individual planning to apply for a loan	find out whether I am eligible before applying	banks take days to respond, or reject me after a hard credit check	I don't know my own eligibility criteria (income, credit score, EMI limits) in advance	anxious and discouraged from even applying
PS-2	a first-time borrower with a thin credit history	understand my credit score and how it affects my loan chances	there is no single free tool that classifies my credit profile and explains it simply	credit bureaus and banks don't provide plain-language advisory	confused and lacking confidence in my financial decisions
PS-3	a borrower comparing loan offers	quickly calculate my monthly EMI for different amounts, tenures and interest rates	most EMI calculators are hidden inside bank websites with logins or ads	there's no lightweight, instant, no-signup EMI tool alongside eligibility & credit info	frustrated at having to switch between many tools/websites
PS-4	a financially inexperienced user	get simple, personalised guidance on improving my finances	generic financial advice online is not tailored to my numbers	there is no accessible AI advisor that reacts to my specific salary, EMI and credit score	overwhelmed and unsure which advice actually applies to me
