Team ID	FinWise AI Team (SmartBridge SIP 2026 - SRM AP)
Project Name	FinWise AI - Intelligent Loan Eligibility, Credit Analysis & Financial Advisory Platform
Maximum Marks	2 Marks

Problem - Solution Fit Canvas

Canvas Dimension	Details
Customer Segment	First-time borrowers, salaried individuals, and students exploring personal/education loans who lack financial-advisory access.
Customer Jobs / Problems	Check loan eligibility before applying; understand credit score; calculate EMI; get financial guidance suited to their numbers.
Triggers (what pushes them to act)	An upcoming purchase or expense requiring a loan; a bank rejection; curiosity about their own credit health.
Emotions Before (Existing)	Anxious, confused by banking jargon, afraid of a hard credit-check rejection, overwhelmed by generic advice.
Existing Alternatives	Individual bank eligibility pages (require login/branch visit); third-party credit score apps (separate from EMI/eligibility tools); generic financial-advice blogs.
Channels of Behaviour	Google search, bank websites, financial YouTube/blogs, word-of-mouth from friends/family.
Customer Constraints / Context	No time for branch visits; hesitant to share sensitive data with unfamiliar apps; often on mobile; expect an instant, free answer.
Our Solution	FinWise AI: one no-login web app combining Loan Eligibility Checker, Credit Score Analyzer, EMI Calculator and Groq AI-powered financial tips, accessible instantly from any device.
Emotions After (Desired)	Confident, informed, and prepared - with a clear eligibility result, credit understanding, an accurate EMI figure, and a concrete next step.
